Inside Your Mind

Justincase

I know you lie awake at night
Counting stars but
You know they're only satellites
They don't hear wishesAnd you don't ever see
What's in front of you
Maybe eventually
You'll come aroundI've tried everything but somehow
You find a way to shut me out
This time maybe you will let me
Get inside your mind, inside your mind
Get inside your mind, inside your mindSomewhere behind your silent eyes
There's a story
I swear that I can help you write
The perfect endingAnd you know I believe
In every part of you
Maybe eventually
You'll come aroundI've tried everything but somehow
You find a way to shut me out
This time maybe you will let me
Get inside your mind, inside your mind
Get inside your mind, inside your mindAll your hidden passions
All your quiet fashions
All your blushing beauty
All you're doing to meI've tried everything but somehow
You find a way to shut me out
This time maybe you will let me
Get inside your mind, inside your mindI've tried everything but somehow
You find a way to shut me out
This time maybe you will let me
Get inside your mind, inside your mind
Get inside your mind, inside your mindI've tried everything but somehow
You find a way to shut me out
This time maybe you will let me
Get inside your mind, inside your mind
Get inside your mind, inside your mind
Get inside your mind
