May Fly

Terry Reid

Nothing I can think, nothing I can do
That I would want to say
Nothing in my head or yours
That you can say really makes me want to say
Now I found out theres something really standing all for life
Oooh, I think its about time
We did something about whats going downChorus
"If you think our love is just worthwhile
Think it's all been worth it
If you think that life is too unbearable to unwind
Fly on, May Fly"Theres something right, before me
I hope you get it today
"Haven't heard a thing or a line in six months
And I'm in a bad bad way
But now I know cause I've sorted
All the things yours and all the things of mine..."
Oh and I know, Ill send back the case
When I can find a place to put it downChorus
"If you think our love is just worthwhile
Think it's all been worth it
If you think that life is too unbearable to unwind
Fly on, May Fly"
