Last Wish

Taras Bullba

I know we on this shit again but
We have come too far to stop or give up
And I know you think it's better to just leave and this is where I disagree
But I know I'm shooting with my words,
Except girl they only words,
You know my actions are louder then what you heard,
I'm tired of this arguing and I wish for one last thing,
It means the world to me.

'Cause I know what we got, even when you don't,
We rock baby 'til the wheels fall off, feel me?
It's real love and I still believe if I wish on one last thing,
Last call, last kiss baby just one last wish,
Last wrong, last slip baby just one last wish.

Been through it all, fought through the pain,
And our love's even stronger girl we can do it again,
And so that's all, and that's it baby just one last wish

Girl I'm sick and tired of deja vu
'Cause here we are again at the top of our lungs,
Till we both know we love harder then we give each other chance to see,
And every time I see tears it hurts,
Tell me is it really worth
You crying me lying it's absurd,
A better man is what I'm a be
So I wish for one last thing,
And that's you and me

'Cause I know what we got, even when you don't,
We rock baby 'til the wheels fall off, feel me?
It's real love and I still believe if I wish on one last thing,
Last call, last kiss baby just one last wish,
Last wrong, last slip baby just one last wish.

Said we have been through it all, fought through the pain,
And our love's even stronger girl we can do it again,
And so that's all, and that's it baby just one last wish.

Damn if I could just wish for one last thing,

Oh baby we've been here before,
Got outta control then we let it go,
It's time that we pick it up and never have to sacrifice,
This a new setup, we can do it better,
Me and you against the world take over together,
Yeah that's how real love should be,
So baby one last call, last kiss, baby just one last wish,
Last wrong, last slip baby just one last wish,
We been through it all, fought through the pain,
And our love's even stronger girl we can do it again,
And so that's all, and that's it, yeah, baby just one last wish, yeah
