

Falling Down

[**Pinmonkey**](#)

Take me as I am, put me some place warm
Lay me down in dreams and feathers lady
You could be a friend, just stretch out your arms
Hold me close until the ghosts fade babyIm falling down, hold me up, hold me up
Im falling down, hold meYou could be the light, shining in my eyes
This could be the night that you might save me
So take me as I am, in case I never change
You can walk away, but just dont leave meIm falling down, hold me up, hold me up
Im falling down, hold me
