

# Northern Air

Morgan Wade

Didn't know the difference between  
What I needed and what I was wanting  
And the way you looked at me  
Was a little haunting  
I can still see you  
With your whiskey and your ginger  
Back of the bar, drunk  
In early september  
But I'm missing you now  
I'm still stuck here in this southern town  
So tell me  
Tell me  
How's that northern air  
And do you think of me  
When you're all alone  
Won't you bring yourself on home  
I sang you songs I wrote about you  
Didn't even know it  
Or maybe you did  
And you too afraid to show it  
Tonight I wonder if you're by yourself  
But I can't imagine you with anyone else  
So tell me  
Tell me  
How's that northern air  
And do you think of me  
When you're all alone  
I could drive all night to be there  
'cause I don't think that I could stand  
One more night on my own  
Won't you bring yourself on home  
There's a red wine stain on my white dress  
That I bought to impress you  
That night that I confessed my truth  
Didn't know it would upset you  
I haven't seen you in so long  
But after all this time  
These feelings they're not gone  
So tell me

Tell me  
How's that northern air  
And do you think of me  
When you're all alone  
I could drive all night  
To be there  
'cause I don't think that I could stand  
One more night on my own  
Won't you bring yourself on home  
Won't you bring yourself on home  
Won't you bring yourself on home  
Won't you bring yourself on home  
There's a red wine stain  
On my white dress  
That I bought to impress you
