One Track Mind

Eric Clapton

Tossing and turning all night long
Down in my pillow felt so strong
I had to get up and write this song
Baby, where do we go from here?I can't do anything to make you see
You've been your loving was made for me
What can I do to make you see
That with you I can't go wrongAll I do is pray
You will come my way
No doubt about it
I've got a one track mindYou took my breath so easily
And you touched my heart so carefully
And you give your love so tenderly
And you can't do nothing wrongI got no time for no one else
And I got no love for no one else
'Cause I don't believe in no one else
With you I do belongAs far as I can see
You're the one for me
No doubt about it
I've got a one track mindAs far as I can see
You're the one for me
No doubt about it
I've got a one track mindYou take my breath so easily
You took my heart so carefully
You give your love so readily
You can't do nothing wrongAs far as I can see
You're the one for me
No doubt about it
I've got a one track mindAs far as I can see
You're the one for me
No doubt about it
I've got a one track mindA one track mind
Got a one track mind
One track mindI got no time for no one else
And I got no love for no one else
'Cause I don't believe in no one else
With you I do belong
