

# This Is Our Night

## Julee Cruise

When all my days are wanting you  
When all your days are wanting me  
Why can't it ever be? Tonight, tonight is our night  
    Tonight, tonight is our night  
    To fall in love so deep in love  
    Tonight, tonight is our night  
    Tonight, tonight is our night  
We always will remember this one night This magic night  
When the world will let us be free When all my dreams are seeing you  
    When all my dreams are seeing you  
    Why can't it ever be?
