Verse 1

Okay.. ready set, lets GO!!!
Yep...One time for your mind let's ROLL!!!
Working super hard like an honor role
So I spit that crack rock, and I'm finna BLOW!!!
Patient...Waiting to finally make it
Not the type of nigga who be tryna fake it
Going non-stop like Walter Payton
And I drop bombs that's hot like Cajun
No wheezing out or phasing
Don't even think of contemplating
Coz my dreams is what I'm chasing
So for the paper boy I'm speed racing
Headed to the stop displacing
All you wack acts I'm replacing
Cos my ish is so amazing
Hot like fire, yeah its blazingHook(2ce)
We the shit right here
Prolly make a mill first week nigga
We the shit right here
Never said I came from the streets
But everytime I rap its always laced with the hit
Straight turnt-up, smoking loud on a beach
Higher than a kite, so I'm harder to reach
Yeah, a good girl type but I love me a freak
Yeah...Bridge
Oooh whoa oooh oh oh
Oh oh
Oooh whoa oooh oh oh
Oh oh, oh oh ohWhen I finally get this money I'm gon' show it
In the VIP, pop bottles, yeah we pouring
Cruising in that GT, drop top strolling

Bet the people just start waving like they know me
COS WE THE SHIT RIGHT HERE!!!

Verse 2

Real nigga.....never pulled a trigger
Rhyme a little iller like a made Born Sinner
Always on the grind, tryna make the dream more realer
So you know I'm never stopping til' I see the grim reaper
Showtime ripper, call me gold mine spitta
And when I finally make it, I'm bringing all my niggas
Headed to better times like a lottery winner
Talking lights camera action with the candle light dinners
Cos I'm super dedicated, so you know I'm never fading
Corny niggas might just hate it, but it keeps me motivated
Envyng the shine, so I know they feeling jaded
Got me spitting like propellers, which just keeps me elevated
All we do is chase the lettuce like a super vegetarian
Ain't really with that beef like Conan the Barbarian
So please players, keep it at ease or on your knees you'll be
If you're F-ing with me, keeping it GRepeat Hook and BridgeVerse 3

Uh...Z.O.T.T .To E.O.T.B

Should've did a motherfucking million first week
But nowadays a cosign the only way you get seen
Internet niggas talk so much shit and I be
I can tell you hate yourself following your tweets
But I promise it be different if you see me in the streets
Cos every nigga with me don't play about me
He sound like you, you sound like him
Shit all yall sounding the same
Nigga I spend K after K, K after K,
K after K like a hate niggas
But I do it for the fam, and you do It for the gram
No amount of this money can ever change who I am
If I do anything its that while I'm here
All in an adding to bringing back "WILL"
FOR REAL!!!Repeat Hook and Bridge Til Fade
