

# Quail

## Artichoke

You think I clog up the drain  
That it all sounds the same  
You hear the strange sound  
    This is what I am  
No apologies  
You say you are the real  
You say you are the real  
    No one wants this  
        Nobody but you  
        Incapable of waking up  
        Emnity  
        Its you or nothing  
    Id take a blank wall any day  
        No more wasted breath  
        No more  
        If its so simple  
        Everytime  
    I die in your conflicting mind  
        If its so simple  
        Everytime  
I die in your conflicting mind  
You say you are the real  
You say you are the real  
    The real coward
