

Punish Her (Remastered)

Bobby Vee

If she has wronged you
Found someone new
But you feel it's not over
Here's what you must doPunish her, kill her with kindness
Buy her red roses everyday
Oh punish her with so much affection
That she will cry for the love she threw awayShe'll soon rediscover with tears in her eyes
That you're the only lover she was born to idolizeJust punish her, blind her with kisses
'Til she can't see how she let you go
Then whisper darling, darling, darling
I still love you soPunish her, punish her, oh
Punish her, punish her, ohPunish her, blind her with kisses
'Til she can't see how she let you go
Then whisper darling, darling, darling
I still love you soPunish her, punish her
Punish her, punish her
Punish her, c'mon, punish her
