

Now or Never

Alan Doyle

I've seen your face in the lights on the Harbour
So take me now and we can walk on Water Street
Get lost in a song, but never alone
Take me now and I will carry you Home
For tonight we are the chosen few
The least that we can do
Is lay our hearts on the line
Oh we're running, we're running
We're running out of time
And I can see the truth
It's coming for me and you
My Love, the moment's here
It's now or never, My Dear
When you closed your eyes, you saw this evening
You wished on a star, and hoped it was true, now
To tell you the truth, I've done my share of dreaming
Oh you need this alright
Well I need it too
For tonight we are the chosen few
The least that we can do
Is lay our hearts on the line
Oh we're running, we're running
We're running out of time
And I can see the truth
It's coming for me and you
My Love, the moment's here
It's now or never, My Dear
For there's nothing I believe in
More than all we need tonight is Me and You
And all we gotta do this evening
Is just make a wish and make a dream
Come true
I'll step into the light and show you my story
And we'll dance into the night and you show me yours
We're running we're running we're running out of time
We're running we're running we're running out of time
For tonight we are the chosen few
The least that we can do
Is lay our hearts on the line
Oh we're running, we're running
We're running out of time
And I can see the truth
It's coming for me and you

My Love, the moment's here
It's now or never, My Dear
