Big Guns

Skid Row

She was a ballerina on a subway train

Stiletto heels and a candy cane

Looked like a number on a station wall

Hot on the tail of a social callI wet my lips, I thought I had it made

Like Valentino with a hand grenade

I made my move with my libido on

She circled once and then she dropped the bombShe got the big guns pointed at my heart

Bang, bang, shooting like a firing squad

Big guns, she blew me away

And I went down in flamesI met a sidewalk preacher on a roller skate

He said, he had the key to Heaven's gate

Wait for the movie 'cause I've been there before

I know that life is a battle and love is warShe got the big guns pointed at my heart

Bang, bang, shooting like a firing squad

Big guns, took me by surprise

She got my lovin' reachin' for the skyShe got the big guns pointed at my heart

Bang, bang, shooting like a firing squad

Big guns, she blew me away

And I went down in flamesI'm doing time as a back seat Romeo

Play solitaire with my hands in the air

Another night and no bullets to spareShe got the big guns pointed at my heart

Bang, bang, shooting like a firing squad

Big guns, she blew me away

And I went down, down in flamesBig guns, big guns

Look at me big guns, yeah

Big guns, big guns

She really, really got the big guns

She shot me down in flames
