

# Mellow Doubt

## Teenage Fanclub

It gives me pain when I think of you  
And the things together that we'll never do  
At first it's cold and then it's hot  
Tried to be someone that I know I'm not I'm in trouble and I know it  
How I'm feeling, I can't show it  
But these feelings, don't go away I remember you, lines on your face  
Sharing a moment in the perfect place  
Deep in your eyes and inside your head  
And I try to reach you when I'm in my bed In trouble, I know it  
I'm feeling, can't show it  
These feelings, don't go away There is no choice, what I must do  
Nothing is greater than to be with you In trouble, I know it  
I'm feeling, I can't show it  
But these feelings, don't go away
