

# Feels Like Christmas

Cyndi Lauper

If you want to see me  
Don't break down and cry  
I can be your sweetie  
If you be a friend of mine  
And I won't be forsaken  
If you think thoughts unkind  
Just bring home the bacon  
And bring it home on time Hey Louie, can't you see?  
I couldn't leave you if I tried  
Hey Louie, listen to me  
We got a thing so dignified  
It don't matter if we lived in a shack  
Or in a shiny Cadillac  
It don't matter rich or poor  
When love is knocking at your door It feels like Christmas  
Just like Christmas  
It feels like Christmas with you  
It feels like Christmas  
Just like Christmas  
It feels like Christmas with you Hey Louie, life is sweet  
Can't be bitter  
When you're here with me  
Hey Louie, no regrets  
Holding on to things  
That you ought to forget  
Well, it doesn't matter tit for tat  
'Cause what you give you get it back  
It don't matter anymore when love is knocking at your door It feels like Christmas  
Just like Christmas  
It feels like Christmas with you  
Every time I see you  
Every time I hear you  
Every time I'm near you  
I'd be happy  
Because it feels like Christmas  
Just like Christmas  
It feels like Christmas with you Every time I see you  
Every time I hear you  
Every time I'm near you

I'd be happy  
Because it feels like Christmas  
Just like Christmas  
It feels like Christmas with you  
Don't you know  
It feels like Christmas  
Just like Christmas  
It feels like Christmas with you  
Everybody  
It feels like Christmas  
Just like Christmas  
It feels like Christmas with you  
It feels like Christmas with you  
It feels like Christmas  
Just like Christmas  
It feels like Christmas with you
