

# Drink drank drunk

## A Sunny Day In Glasgow

Yeah!

I'm a madman, and I came to go  
I'm on the move, I wanna screw  
I wanna fuck till I'm sore  
Gather up your women and children  
We're here to throw down  
And drink up all the booze that you've got in your house  
There ain't a god damn thing that you can do  
Cause we're gonna trash this party like we did in high school  
So tap up the barrel, and twist up the weed  
Law that I decree, It's our time now  
So everybody scream, Yeah!

Let's get fucked up, till we fall down  
So everybody get drink drank drunk, right now  
Let's get tore up, till we're face down  
Because the Hellyeah drink, drank, drunks are back in town  
Right now

To all the hellions all around the globe  
Slam your fists on the bar, demand a round of shots  
Half rack a joint and a bottle of booze  
I can't walk a straight line, but that's the life I choose  
Call me an animal, but I'm bringing the hope  
If this party was the Vatican then I'd be the Pope  
Tap up the kegger, twist up the weed  
Law that I decree, it's our time now  
So everybody scream, Yeah!

Let's get fucked up, till we fall down  
So everybody get drink drank drunk, right now  
Let's get tore up, till we're face down  
Because the Hellyeah drink, drank, drunks are back in town  
Right now, let's get fucked up  
Right now

There's only two reasons, that we showed up here, right now  
To party and kick some ass, and we're almost outta beer  
There's only two reasons, that we showed up here  
To party and kick some ass, and we're almost outta beer

Yeah!

Hellyeah!

Let's get fucked up, till we fall down  
So everybody get drink drank drunk, right now  
Let's get tore up, till we're face down  
Let's all get drink, drank, drunk

Right now, fuck this shit up  
Right now, fuck this shit up  
Right now, fuck this shit up  
Right now, fuck this shit up

Right now, fuck this shit up  
Right now, fuck this shit up  
Right now, fuck this shit up  
Right now, fuck this shit up
