

# Downside Of Love

[Richie Sambora](#)

There's a danger of getting so close to you  
There comes a time when the walls fade away  
And when love turns to bitter blue Sometimes it feels like it's so hard to stay  
Last night we went to bed angry  
We didn't mean what we said  
Seems we never get past forgiveness We try to hide, we never learn  
To swallow our pride  
On the downside of love  
Where the love turns to hate  
We just can't relate  
On the downside of love When you're misunderstood  
'Cause when it hurts you  
It hurts you so good Baby, life has no guarantee  
Never knowing where love's gonna lead  
Even through you're a part of me  
We have to deal with our pain separately Sometimes we both feel like victims  
With no easy way out not, no, no  
Somehow we stand by each other  
When we're desperate and drowning in The shadows of doubt  
On the downside of love  
Where the love turns to hate  
We just can't relate On the downside of love  
'Cause when it hurts you  
It hurts you so good The times we share the tenderness  
Are the times that keep us alive  
You get in my face, you rough me up  
But baby you know Can't hurt me 'nough, to give you up  
And make me let go  
Make me let go, oh no, no When you're on the downside of love  
Where the love turns to hate  
We just can't relate  
On the downside of love When you're misunderstood  
'Cause when it hurts you  
It hurts you so good  
Downside of love Love's just a long, long road baby  
Yes there's a downside of love  
Stand by my side baby  
When you're on the downside of love  
No, no, no Downside of love

'Cause it's a long, long road baby  
Downside of love
