All I Need To Know

Foreigner

So I walk another mile down this crooked road
Clouds rolling in Lord it's getting cold
Feeling fine, feel lost, feeling blue tonight
But my only friend is Mr. Moonlight
Then I see you girl lost in your book of poems
You're in another world, I should leave you alone
My heart races on I try and hold it back
But like a runaway train I'm about to jump the tracks
Now you say you need a friend
I swear to you if that's what you need
That's what I'll be but I hope this never ends
I feel there's something more the way you look at me
And that's all I need to know
I won't question why, don't need a reason
We can take our time we can take it real slow
When I see it in your eyes, that's all I need to know
Now we're talking 'bout angels that have lost their wings
This melancholy world and the nature of things
But them there's only silence when your eyes meet mine
Sends a shiver to my soul runs deeper than time
Reciting from your black book you were like some wounded bird
I tried to catch your heart as it fell between your words
You tore out one page and let it blow away
Then you disappeared into your world, it's a place I just can't stay

You say you need a friend
I swear to you if that's what you need
That's what I'll be but I hope this never ends
I feel there's something more the way you look at me
And that's all I need to know
I won't question why, don't need a reason
We can take our time we can take it real slow
When I see it in your eyes, that's all I need to know
All I need to know
I won't question why, don't need a reason
We can take our time we can take it real slow
But it's right here in my heart, that's all I need to know
That's all I need to know
I won't question why, don't need a reason

We can take our time we can take it real slow
When I see it in your eyes, that's all I need to know
All I need to know
I won't question why, don't need a reason
We can take our time we can take it real slow
But it's right here in my heart, that's all I need to know
That's all I need to know
That's all I need to know
That's all I need to know
All I need to know
