

Ladies Of The Road

King Crimson

A flower lady's daughter
As sweet as holy water
Said, "I'm a school reporter
Please teach me", well, I taught her
Two fingered levi'd sister
Said, "Peace", I stopped, I kissed her
Said, "I'm a male resister"
I smiled and just unzipped her
High diving, Chinese trender
Black hair and black suspender
Said, "Please, me, no surrender
Just love to feel your fender"
All of you know that the girls of the road
Are like apples we stole in our youth
All of you know that the girls of the road
Been around but are versed in the truth
Stone-headed, Frisco spacer
Ate all the meat I gave her
Said, would I like to taste hers
And even craved flavor
Like marron-glaced fish bones
Oh, lady hit the road
All of you know that the girls of the road
Are like apples we stole in our youth
All of you know that the girls of the road
Been around but are versed in the truth
Ladies of the road
Ladies of the road
Ladies of the road
