Johny's

1000mods

let i be and just leave it all
behind
come and see that it's all
in your little mind
let it be and go find it
when the lights are on
just to see all the things
that you surely knowthere's a bomb under the sky
there's a bomb and i'm feeling like dying
there's a bomb under the sky
there's a bomb and i'm feeling i'm tryingthe kids aren't where you lay
the kids aren't where you lay
leave me alone in my headnow you see me my friend
with no heart inside
now it does goes my heart
it's just open wide
let it be and go find it
when the lights are on
just to see all the things
that you surely knowthere's a bomb under the sky
there's a bomb and i'm feeling like dying
there's a bomb under the sky
there's a bomb and i'm feeling i'm tryingthe kids aren't where you lay
the kids aren't where you lay
leave me alone in my head
