

# Even When I Fall

[Greg McDougal](#)

I really meant it when I said it  
Lord I'll never let you down

Yes I thought you couldn't see me on the other side of town

When I got into some trouble the kind a man brings on himself, wasn't long before you heard my cry for help

Even when I fall I can call on your sweet name

Even when I fall the answer's still the same

You have more than enough Mercy for a man with all my faults  
Still you love me through them all,  
Even when I fall

There's so much to hold against me

But all you ever give is Grace  
It's beyond my  
understanding, must be why they call it faith.

I used to think that starting over what's the hardest thing to do but all roads to forgiveness begin with you.

Even when I fall I can call on your sweet name

Even when I fall, the answer is still the same

You have more than enough Mercy for a man with all my faults

Still you love me through them all ..Even when I fall.

You have more than enough Mercy for a man with all my faults  
Still you love me through it all, even when I fall

Yes you love me through them all Even when I fall
