Black Limousine

Burning Jet Black

You're done pushing papers oh I know that wasn't easy
But I'm not gonna stand by 'cause the sight just makes me queasy
Acting so immune when the firing squad is calling
I don't want to see you in a black limousineHeading to the streets you're going down
Pounding to the beat you're going down
But if you're going down I'm going down
Yeah if you're going down we're going downSleeping with your mess when the biggest storm is blowing past
A terrifying display of both our lives burning fast
Under the disguise of an old fashioned gentleman
I don't want to ride in your black limousineHeading to the streets you're going down
Pounding to the beat you're going down
But if you're going down I'm going down
Yeah if you're going down we're going down
