Angel

Electrasy

Sometimes I cry, you're what I left behind
Sometimes I see, you layin next to me
I wanna get high, sometimes I don't know why
I thought I was free, but all I can do is sit and dreamOh my angel, you're made in England ah so well
"you miss me" she said and it's true
there's noone else, only youall my all my all my angelsI sit all alone, and wish somehow you're not gone
so now I believe, that noone would ever set me freeOh my angel, you're made in England ah so well
you miss me she said and it's true
there's noone else, only youOh my angel, you're made in England ah so well
you miss me she said and it's true
please believe me oh I doOh my angel, you're made in England ah so well
you miss me she said and it's true
there's noone else, only youall my all my all my angels
all my all my all my angels
