

Angel

Electrasy

Sometimes I cry, you're what I left behind

Sometimes I see, you layin next to me

I wanna get high, sometimes I don't know why

I thought I was free, but all I can do is sit and dreamOh my angel, you're made in England ah so well
"you miss me" she said and it's true

there's noone else, only youall my all my angelsI sit all alone, and wish somehow you're not gone
so now I believe, that noone would ever set me freeOh my angel, you're made in England ah so well

you miss me she said and it's true

there's noone else, only youOh my angel, you're made in England ah so well

you miss me she said and it's true

please believe me oh I doOh my angel, you're made in England ah so well

you miss me she said and it's true

there's noone else, only youall my all my all my angels

all my all my all my angels
