Get To Know Me

Nylo

Aiyyo Joe, here's another one
To me Mob Nas
They drool on the blue jewels on the arm
Too cool in the palms still move to this song
Been a minute since I heard some new Joe
'Cuz dawg is crazy, R&B cujo
And now I'm a rap psycho
Norman Bates call it momma
With the brown in lama
But I ain't in town for no drama
Just peep it, shorty, peep me so I'm on ya
In the club deep wit all of my crew
Saturday nights, it just what we do
Just enjoying the good life, it's alright in here
When I turn around I see
A sexy mommy starin' at me
I already know what she's thinking
She wants me tonight, yeah
I see you lookin' at me, naughty
Come over and get to know me
Tell me what it is you're sippin'
I slip it up I got the bar
Maybe if you get to know me
Than maybe we can leave this party
Oh, you got a sexy body
Come over and get to know me
You're so damn hot, girl, you're makin' me sweat
You gotta round thing that I can't forget
From yo hips all the way to yo chest looks so good
I must say that I'm impressed
You should thank God 'cuz you've been blessed
Come here so I can get in yo' head, don't be shy
Come over, come over
Come over, come over
Come over, oh, come over
And you get to know me
I see you lookin' at me, naughty
Come over and get to know me
Tell me what it is you're sippin'

I slip it up, I got the bar
Maybe if you get to know me
Then maybe we can leave this party
Oh, you got a sexy body
Come over and get to know me
I see you lookin' at me, naughty
Come over and get to know me
Tell me what it is you're sippin'
I slip it up, I got the bar
Maybe if you get to know me
Then maybe we can leave this party
Oh, you got a sexy body
Come over and get to know me
Yeah baby, I know why you're here
I know watchu thinking but I ain't saying nuttin'
Great minds think alike, you intelligent species
We already connect through telekinesis
Plus my gear's direct the monkey jeans on
One pair 15 huh crisp clean air ones
I'm thinking you could be my sparkle
Maybe my paw they ain't raisin' my offspring
The Haitians let you taste the algae
The grapes are sent from maple valley
Your waist is slim, it must be Balley's
Ya killin' me soft like old school Albe
I see you lookin' at me, naughty
Come over and get to know me
Tell me what it is you're sippin'
I slip it up, I got the bar
Maybe if you get to know me
Then maybe we can leave this party
Oh, you got a sexy body
Come over and get to know me
I see you lookin' at me, naughty
Come over and get to know me
Tell me what it is you're sippin'
I slip it up, I got the bar
Maybe if you get to know me
Then maybe we can leave this party
Oh, you got a sexy body
Come over and get to know me
Come over and get to know me
You're gonna like what you see, oh yeah
Come over here
Come, come over here

Come over here, baby
Come over here
