

# Life... Oh What a Drag

## NOFX

life  
oh what a drag  
whys it always us left holding the bag  
our \_\_\_\_\_ just trying to live  
some men are cast as fugitive  
destroy so no one will learn  
light the match and watch the kerosene burn  
they'll say a crackhead set the fire  
no one will know it was really a funeral fire  
every thing we've built is going to be gone  
how will we be able to move on  
because we know this is just a space  
our family will survive  
in any place  
burn hotter cremate  
we've got to destroy so we can create  
a new life far away from here  
lets cover our tracks and disappear
