

Bring It Back

[Kris Allen](#)

Unspoken in silence, let's stay here tonight
There's no reason to ask me 'cause you know what's inside
Don't worry now, seasons will change
Forgive my mouth, not letting you walk away
Take your love, bring it back, bring it back
Think before you leave
I forgot what love is, bring it back
Tell me that you believe what fate's been telling me
At sundown on the freeway is no place for goodbyes
Don't worry now, seasons will change
Forgive my mouth for not letting you walk away
Take your love, bring it back, bring it back
Think before you leave
I forgot what love is, bring it back
Tell me that you believe
I've got a different ending to our story
I know it's hard for you to hear it through but listen as I read
Take your love, bring it back, bring it back
Think before you leave
I forgot what love is, bring it back
Tell me that you believe, yeah
Take your love, bring it back, bring it back
Think before you leave
I forgot what love is, bring it back
Tell me that you believe what fate's been telling me
