

Magic

Paul McCartney

There must have been magic
The night that we met
If I hadn't stopped you
I'd always regret A few minutes later
You'd have been out that door
I'd have been lonely
Forever more, forever more Oh, what made us do it?
Under what holy spell?
Nature's mother knew it
Only too well She reached out her fingers
To point at the sky
Leaving me helpless
Not knowing why And this is the hour
That they turn out the light
Nothing but memories
Burning so bright, burning so bright Oh, what made us do it?
Under what holy spell?
Nature's mother knew it
Only too well There must have been magic
The night that we met
If I hadn't stopped you
I'd always regret, always regret There must have been magic
There must have been magic
There must have been magic
The night that we met
