

# I Want To Kill You

## Powerman 5000

Life is never what you want  
When all your ghosts have gone to haunt  
An theres an echo here tonight  
your not alone and its alright  
but hold on  
I want to kill you  
I want to kill you  
I want to kill you  
I want to kill you and you want to kill me too  
I want to kill you  
I want to kill you  
I want to kill you and you want to kill me too  
Wrap your hands around my neck  
Its what i need and should expect  
Don't hate the player hate the game  
At least we know we feel the same  
So hold on  
I want to kill you  
I want to kill you  
I want to kill you (I want to kill you)  
I want to kill you and you want to kill me too  
(Solo)  
Life is never what you want  
When all your ghosts have gone to haunt  
An theres an echo here tonight  
Your not alone and its alright  
But hold on... Hold on  
I want to kill you  
I want to kill you  
I want to kill you  
I want to kill you and you want to kill me too  
I want to kill you (I want to kill you)  
I want to kill you (I want to kill you)  
I want to kill you and you want to kill me too  
I want to kill you (I want to kill you)  
I want to kill you (I want to kill you)  
I want to kill you (I want to kill you)  
I want to kill you and you want to kill me too  
Life is never what you want
