Corrina Repp

I believed in
believed in what you were
you can't shine your light on me
cause I've seen you in the dark I won't make you like me
you know what's in my heart
you can't shine your light on me
cause I've seen you in the dark I found that I have the same pulse as
I found that I breathe the same breath as
I found that I have the same pulse as you Is it alive?
Or does it take up your time?
You can't say you like me,
cause I've seen you in the dark
I found that I have the same pulse as
I found that I breathe the same breath as
I found that I have the same pulse as
I found that I breathe the same breath as you
