

# However Which Way

## Introvoys

I know it's strange to want me  
When you close your mind  
I know it's sweet to see me  
Understand it's time  
Don't look back, go forward  
Just move on  
It's not too late to want  
Somebody you've known  
Look around your face  
Let's see the world in one day  
If I ever walk the world  
Do you ever walk in my way  
However which way  
However which way  
Try to close your eyes  
And listen to the waves of young  
Can you hear my voice I'm calling  
Hear the sound  
I can't go on forever all alone  
I am only human  
And my heart's not stone  
Look around your face  
Let's see the world in one day  
If I ever walk the world  
Do you ever walk in my way  
However which way  
However which way  
Adlib  
Look around your face  
Let's see the world in one day  
If I ever walk the world  
Do you ever walk in my way  
Look around your face  
Let's see the world in one day  
If I ever walk the world  
Do you ever walk in my way  
However which way  
However which way  
However which way
