

Let's Fuck

Dope

I see you baby and you're looking so good
I got a feeling and I think that we should
Let's take it outside let's go for a ride
Let's do it wherever we want
Let's make it a crime let's do it in time
Let's do it wherever we want Let's fuck I wanna baby and I know that you would
I got it baby and I know that you're good
Let's do it for sin let's bring in your friends
Let's do it wherever we want
Let's do it for them let's do it again
Let's do it wherever we want Let's Fuck Let's go all the way
Let's do it all day
Let's do it wherever we want
Let's turn out the lights
Let's do it all night
Let's do it as long as we want Let's fuck
Let's do it again
Let's do it wherever we want
Let's fuck
