Live This Nightmare

The Griswolds

You do what you want
You do what you need
Just don't let this get back to me
You do what you want
You do as you please
Do whatever will help you sleepShe called me up at the breaking dawn
She said that she's gonna be okay
She called as if there was nothing wrong
Okay, okay, okayI won't lie to keep you here
I could never be that cold, my dear
Cause I can't live this nightmare
And I won't live this nightmare
I won't lieI do what I want
I do what I need
Do whatever will help me sleepShe called me up in the early morning
She asked if we're gonna be okayI won't lie to keep you here
I could never be that cold, my dear
Cause I can't live this nightmare
And I won't live this nightmare
I can't lie to keep you here
I could never be that cold, my dear
Cause I can't live this nightmare
And I won't live this nightmare(You do what you want
You do what you need
Just don't let this get back to me
You do what you want
You do as you please
Do whatever will help you sleep)Carry, carry, carry
I can't get ordinary
I can't just keep you holding on
Carry [?]
I know you're feeling buried
So how's your [?] gonna goI won't lie to keep you here
I could never be that cold, my dear
Cause I can't live this nightmare
And I won't live this nightmare
If you cry for me, my dear
Drowning in a pool of wasted tears
Cause I can't live this nightmare

And I won't live this nightmare
I won't lie
