

Never the Heroes

Judas Priest

Like a cobra they will strike
And like lions caged we'll fight
We were taken not by choice
They put anger in our voice We were fearless but so afraid
Though in our hearts we still felt pain
We're on fire but on a leash
We only ever wanted peace Never the heroes
We were made to fight
Never the heroes
We were just sacrificed
At war
Like a demon leads the youth
We are terrible in truth
No time to falter, no turning back
When we come under attack There is no question as with a friend
We have our honor to defend
We're on fire but on a leash
We only ever wanted peace Never the heroes
We were made to fight
Never the heroes
We were just sacrificed
At war
At war We are together till the end
We have our honor to defend
Never the heroes
We were made to fight
Never the heroes
We were just sacrificed
Never the heroes
(We were never the heroes)
We were made to fight
(We were made to fight)
Never the heroes
We were sacrificed
At war
