

Terra Incognita

Nanda Devi

I kept guards and caravans close to me
In case one day I'd need some company
 I never looked out towards the wind
i never saw the families gathering around
 Holy ghost
 Tripled host, I saw
 Carry me home
On the backs of beasts that drone
 Holy sky
 Opened up so wide
 Carry me home
 Scared me to the bone
 Celestial crops carry me home
These ancient technologies strengthen my bones
 I know a place called love
 No one bothered me there, no I was all alone
 Will you join me?
 Could you possibly be
 The one I sought?
 The one I fought for?
 A place I'd be
 Able to see clearly
 The beginning and end
 I want to begin
