Eyes of Wrath

Testament

Eyes of wrath
The beast is on your back
Razorblades slice your neck
Slowly tear you down
Takes another life
To feed his bloody lust
Random crime spree attack
There's nothing random at allDead city nights
Another daughter's done
Another victim of circumstance
She took the wrong way home
Can you hear the screams
The music of the dead
A ritual of broken flesh
Annoints the silver bladeNo one lives forever
There is no forever
And I'll tell you why
Rage, Rage soothes the pain
Pain, Pain soothes the rage
Lash out in anger
that never will change
I can never escape
Rage, Rage Soothes the pain
Pain, Pain Soothes the rage
Rage, Pain
