# Borrow

## Brendan Benson

You won't have to borrow
And you won't have to beg
Not likely to follow
Not so easily leadAnd it could be the worst time
And it happens so fast
But it's not the first time
And it won't be the lastAnd there's nothing really I can do
And there's nothing really I could say
You do what you want to
You don't see it any other way, any other way
You don't care what other people sayAnd it's there for the taking
So helpless and frail
A man in the making
Who is destined to failYou don't have the patients
You don't have the time
You severed relations
When you made up your mindAnd there's nothing really I can do
And there's nothing really I could say
You do what you want to
You don't see it any other way, oh, any other way
You don't care what other people sayI'm not gonna get down on my knees
And kiss your feet
Say pretty please if you say so
I'm not gonna play down but I knowYou won't have to borrow
And you won't have to beg
Not likely to follow
Not so easily leadAnd there's nothing really I can do
And there's nothing really I could say
You do what you want to
You don't see it any other way, any other way
You don't care what other people sayYou don't see it any other way, any other way
You don't care what other people say
