

Harlem

DJs from Mars

Every time I call you think I'm your freaking doll
But I'm not your freaking doll
And my heart goes boom
Every time we meet down the street
You donâ€™t really give a sh*t
And my heart goes boom boom boom

Every time I call you think I'm your freaking doll
But I'm not your freaking doll
And my heart goes boom
Every time we meet down the street
You donâ€™t really give a sh*t
And my heart goes boom boom boom

Boom boom boom boom

You got me insane in da brain
And tonight Iâ€™m gonna lose control
And my heart goes boom
You got me insane in da brain
And tonight I'm gonna lose control
And my heart goes boom

You got me insane again and again and again
Get out of my way 'cause you got me insane
In da brain and tonight I'm gonna lose control
Gonna lose control
'Cause you got me insane

Insane sane sane sane sane
Insane sane sane sane sane
Got me insane sane sane sane sane

Every time I call you think I'm your freaking doll
But I'm not your freaking doll
And my heart goes boom
Every time we meet down the street
You donâ€™t really give a sh*t
And my heart goes boom boom boom

Every time I call you think I'm your freaking doll
But I'm not your freaking doll
And my heart goes boom
Every time we meet down the street
You don't really give a sh*t
And my heart goes boom boom boom

Boom boom boom boom

You got me insane in da brain
And tonight I'm gonna lose control
And my heart goes boom
You got me insane in da brain
And tonight I'm gonna lose control
And my heart goes boom

You got me insane again and again and again
Get out of my way 'cause you got me insane
In da brain and tonight I'm gonna lose control
Gonna lose control
'Cause you got me insane

'Cause you got me insane
You got me insane
