Just Watch

Anna Mae

It's the one thing you don't wanna miss
Got your eyes locked like you know you should
Got the whole world at our fingertips
And you know it feels so dang good
So good, so goodJust watch Just watch
Watch how we do it when we do it like that, when we do it like that
Just watch Just watch
Watch how we do it when we do it like that, when we do it like that
oooooo, oooooJust like lightning, electricity
A thousand volts singing, oh, can you hear the sound
It's black magic like you've never seen
Turning everything right side upside-down
Upside-down, upside-downJust watch Just watch
Watch how we do it when we do it like that, when we do it like that
Just watch Just watch
Watch how we do it when we do it like that, when we do it like that
oooooo, ooooooooooo So dang good
oooooo When we do it like thatJust watch Just watch
Watch how we do it when we do it like that, when we do it like that
Just watch Just watch
Watch how we do it when we do it like that, when we do it like that
oooooo, oooooo
