

Lower

Slash's Snakepit

Lower than the bottom
Swallowed by the ride
Floating in the bathtub
Children play outside So tell me how to do it?
How to do what I'm gonna do?
How to keep the knife from inside of you?
Baby, now you're lower too You looked so unhappy
Squatting in some stall
And it gets even better
When all the lights are off So tell me how to do it?
How to do what I'm gonna do?
How to keep the life inside of you?
Baby, now you're lower too What were you really thinkin'?
What did you need?
'Cause all those wounds forever bleed Drink me, it's a nightmare
It's the needle in your veins So tell me how to do it?
How to do what I'm gonna do?
How to keep the knife from inside of you?
Baby, now you're lower too Tell me how to do it?
How to do what I'm gonna do?
How to keep the life inside of you?
Baby, now you're lower too Burning every memory
It's gonna eat your insides out
And throw it out on me
Struggling, Heaven, help you
Staring down the barrel of your own gun
And now you're lower too
