Eldest 11

The best moments....moments...
Build up over time.....
It's simple and exciting!
You and your big city life!
but I don't trust your stupid depth.....
Stay near.....You found me in the red zone....All alone...but You're beautiful...
So trusting to give your wrist...
I know....I'm not in love....
I just want to make you feel right....
I use too...I know you...
You would do the same for me...
Overtime...Nothing lasts in the end.
It always dies.....They say, I bruise too easily....
Is that the truth?
Like everything I know...Leads to combative forms...
I'll give you colors...Like you've never seen...
Just chip away the paint...For all to see....but You're beautiful...
So trusting to give your wrist...
I know....I'm not in love....
I just want to make you feel right....
I use too...I know you...
You would do the same for me...
Overtime...Nothing lasts in the end.
It always dies.....
