

Genocide Peroxide

Boy George

Beautiful child in razor heels
Sashays into the room
All the boys, they catch their breath
And the mirrors, swoon Now she's running down the hall
Head scarf and a Hollywood smile
She's got a dagger in your back
And a killing style Love and hate, it's all the same your way
Just another twisted game to play
Evil, child star, movie queen
Evil, sweet charm, Mabeline
Evil, no one gets the better of me Your father's rage and a cocktail dress
With a bullet proof heart
Why is your life in such a mess
If you're so damn, smart Judy Garland, Jimmy Dean
You tragedy queen
Give me fat girls, give me rough boys
Give me what I dream Love and hate, it's all the same your way
Just another twisted game to play
Evil, child star, movie queen
Evil, sweet charm, Mabeline
Evil, such a pretty boy that I've never seen Love and hate, it's all the same your way
Just another twisted game to play
Evil, child star, movie queen
Evil, the sweet charm, Mabeline
Evil, no one, gets the better of me Evil, evil, evil
No one, gets the better
No one, gets the better
No one, gets the better
