

Open Fire (feat. Daniel Johns)

SLUMBERJACK

[Verse 1]

We're a long way from the cold nights in that old place

We found earth

And I've been so caught up in the moment

We got lost

And it all changed when a spotlight came my way, so now why?

If it's just one thing that led to another, then you're gone [Chorus]

Open fire, stranded on the line where I lost you

Hoping to find where did it all go wrong

Do you know?

Open fire, stranded on the line where I lost you

Hoping to find where did it all go wrong

Do you know?

[Verse 2]

Was it always on your mind, were you okay?

How long did I miss some of the warnings that you're going?

It's my fault

But it all changed when the spotlight came my way, so now why?

You could've told me right in the moment

But you waited [Chorus]

Open fire, stranded on the line where I lost you

Hoping to find where did it all go wrong

Open fire, stranded on the line where I lost you

Hoping to find where did it all go wrong Open fire, stranded on the line where I lost you

Hoping to find where did it all go wrong

Do you know, do you know, do you know?

Do you know?
