

Marble Tulip Juicy Tree

Ween

I don't know who you are
Don't know who you want to be
When I carbonate the test tube
Then you won't see me I got a twin cab diesel combo
It takes me where I want to go
And all the nuphies are happy
They know of a fungus that grow So when you see Hoecke's mind screw
Don't come running to me
'Cause [Incomprehensible] will scream and set aflame
Marble tulip juicy tree Marble tulip juicy tree
It's where I want to be
When I gnaw on the tulip
It'll wish that it was me Every morning I put my shoes on
And I think about she
Who controls the four seasons
Inhaling kitties in the sea It's like a noodle in a salad
Little birdy wants to be set free
I drill the corpse lobe with my mommy
Marble tulip juicy tree So this song's about the loving things
That you are to me
Just stay away from my adenoids
And marble tulip juicy tree Marble tulip juicy tree
It's where I want to be
When I gnaw on the tulip
It'll wish that it was me
