Time Bomb

A Perfect Murder

It all started as a game
You said let's fucking try it
Just for fun, just like everyone else didBut you got played your own game
You got played your own gameYour life is a time bomb
Your life is a time bombIt happened so quickly
It took your everything
Now your life is a living hellYour heart is pumping poison
Your lungs can barely breathe
And you're now sitting on a time bombYou got played your own game
You got played your own gameIt all started as a game
But the game is over now
And your eyes are shut foreverTime bomb, time bomb go
