

# Closing My Heart

## Kite

I was leave and let go  
imaginary wild at heart  
what started with a kiss would change a whole wide world  
I guess the spotlight's dead  
make me look a little less alone  
it started with a kiss and changed a whole wide world

Well I used to dream a lot  
now whether I want or not  
I'm closing, I'm closing, I'm closing, I'm closing, I'm closing my heart

I guess it's easier to miss  
though hopelessly I reach above  
what started with a kiss would change a whole wide world  
well now I know how it is  
to really get to know a girl  
it started with a kiss and changed a whole wide world

Well I used to dream a lot  
now whether I want or not  
I'm closing, I'm closing, I'm closing, I'm closing, I'm closing my heart

Yeah I used to dream a lot

now whether I want or not

I'm closing, I'm closing, I'm closing, I'm closing, I'm closing my heart
