

Devil In Me

Last In Line

Some fall in love with a dreamer
Cause you'll always live a fantasy
Or make you a believer
When those dreams become reality
You be out of control
Your heart and soul
You'll never see the break nor day
But the righteous man
To wave his hand
And chased it all away
When I climb a mountain
Ride across the seas
When I scale the sundown
To kill that Devil in me
Make sure you see those demons
Before they eat you up
Cause when the sun goes down
The shadows abound
Breaking you down slow
With the sound of heav'n
To the beat of a million broken hearts
The earth below will grab your soul
And beat you to the ground
When I climb a mountain
Ride across the seas
When I scale the sundown
To kill that Devil in me
Shout it from the rooftops
To the day of break
When I pursue the world in the sun
To kill that Devil in me
To kill that Devil
Wake up and sound the alarm
Don't close it down
Don't go running scared
If you dare
To fight your way through the dark
But fear is a liar
Controls you from inside
When push comes to shove
Trust the eyes above
And keep - your - faith - alive
When I climb the mountain
Ride across the seas
When I scale the sundown

To kill that Devil in me Shout it from the rooftops
To the day of break
When I pursue the world in the sun
To kill that Devil in me
To kill that Devil To kill that Devil
The Devil
The Devil Wake up and sound the alarm
You're feeling alive
You're feeling alive
