Bounce

Toya

I've been noticing you peepin' me
Stressin' me, sweatin' me
Why won't you let it be move on
Keep rollin' on, stop touchin' me
Pullin' me, squeezin' meBaby please, get off of me
Don't play yourself find someone elseBack up please give me 5 feet
Quit hatin' on me please don't crowd
You cramp my style I've gotta make my rounds
Catch you back in a little whileYou just met me and all over me
Don't even know me Keep comin' to me
Buggin' me, makin' me wanna leave
Tell me you just met me, stop stressin' meYou see I don't want your company
Neglectin' my space you need to ride out
Catch you on rebound
So bounce, bounce, bounceDon't me come off rude or have an attitude
But the things you do defintion of a bug-a-boo
Don't think because you're flashin' dubs
You're gonna convince my loveTo come around you lose baby
You played yourself find someone elseBack up please give me 5 feet
Quit hatin' on me please don't crowd
You cramp my style I gotta make my rounds
Catch you back in a little whileYou just met me and all over me
Don't even know me keep comin' to me
Buggin' me makin' me wanna leave
Tell me you just met me, stop stressin' meYou see I don't want your company
Neglectin' my space you need to ride out
Catch you on rebound
So bounce, bounce, bounceBounce, why you all over me?
Bounce, could you back up please?
Could you back up please?
Boy let me breathBoy won't you give me 5 feet
Get out my face respect my space
Neglectin' my space boy ya buggin' me
I don't want your company so bounce, bounce, bounceYou just met me and all over me
Don't even know me keep comin' to me
Buggin' me, makin' me wanna leave
Tell me you just met me stop stressin' meYou see I don't want yo company
Neglectin' my space you need to ride out
Catch you on rebound

So, bounce, bounce, bounce
