

Leisure Suite (Black Session)

Feist

In my leisure suite
Quit talking
Just talking
Please
In my leisure suite
Sometimes
I feel the room surround me
With possibility
Build fires to stoke them
Let's fix what's been broken
Words have been stolen
But silence is golden
In my leisure suite
Just a place to meet
We can press repeat
And do what we do when we're there
Don't come knocking
This doors for locking
Have you got the key
In my leisure suite
Hang up your jacket
Undo my back zip
Please
Moonlight on blanket
It's great when your backlit
Features in close-up
The moment we woke up
In my leisure suite
Just a place to meet
We can press repeat
And do what we do when we're there
In our leisure suite
Come lie next to me
We can be complete
And do what we do when we're there
In my leisure suite
In my leisure suite
