

# Spectrum

## Dover

Baby I'm your sister, I'm your mother  
I am an angel, I know the truth  
hey! did you hear it? When they did scream.  
Baby I'm your brother, I'm your father  
I am an angel, I know the truth  
did you hear it? When they did scream.  
Moon and the stars dry night  
did you hide the sun  
so sorry sad sister  
I just wanna sleep the rest of my life.  
I am spectrum centuries off  
and I forgot how to talk  
I know something that nobody knows.
