

# Going All The Way

## The Squires

Well, this is it, so where it's at monomaniacs  
Baby, you know all we're good for  
Drugs for the kids, if the kids are flat  
All dressed up to match  
Those shit eating grins look effortless  
And if there's nothing left to die for  
And all this our beauty is just decay  
And if there's nothing left to die for  
Then you and me, let's go out going all the way  
Well, this is it, so where it's at megalomaniacs  
Baby, you know it's all we're good for  
Those missile men with their master plan  
Don't get paid to understand  
Makes you wonder where we got these shit eating grins from  
And if there's nothing left to die for  
And all this our beauty is just decay  
And if there's nothing left to die for  
Then you and me, let's go out going all the way  
Dreams of sea caught way inland  
Cut as losses we'll cut our losses  
We'll cut our loss
